

Onchain Proposals

1. [Arbitrum Hackathon Builder Continuation Program](#) (voting ends on 19th Dec, Thursday)

RnDAO proposes to co-fund a phased 6-month program in partnership with Arbitrum DAO to invest in 4 Arbitrum CollabTech Hackathon winners with the aim of taking these projects from a hackathon PoC to MVP.

ArbitrumDAO will invest \$187,980 into the ventures (including half of the program admin costs), while RnDAO will provide \$200,000 for the second half of the admin and operational costs and invest in the projects by providing weekly hands-on support.

Phase 1 will focus on validating ideas and understanding the market landscape, while Phase 2 will support projects to move from 'PoC' to the development of a market-viable 'MVP' to secure their first users.

2. [Treasury Management V1.2](#) (voting ends on 20th Dec, Friday)

Entropy Advisors proposes two treasury tracks to tackle treasury management:

Treasury Management (TMC): 10M ARB for ARB-only strategies + 15M ARB converted to stables.

Growth Management (GMC): 7,500 ETH, DAO-approved spending only.

Each track gets a 3-member committee for specialized focus, with funds under the Arbitrum Foundation's custody.

Snapshots ⚡

1. ARDC (V2) Elections (voting ends on 12th Dec, Thursday)

As outlined in the [ARDC V2 Tally proposal](#), the following ARDC roles are up for election:

- [Security Member](#): [OpenZeppelin](#) or [Trail of Bits](#)
- [Risk Member](#): [Vending Machine](#), [TAU Labs](#), [Jupiter Block](#), [DeFiSafety](#), or [Nethermind](#)
- [Research Member](#): [Revelo Intel](#), [PYOR Research](#), [The Block Research](#), [Llama Research & Castle Capital](#), [Blockworks Advisory](#), or [Messari](#)
- [Supervisory Council \(Communications Role\)](#): [Frisson](#), [JuanRah & Alex Lumley](#), [jameskbh](#), [Pedro Breuer](#), [Violet Benson](#), or [ZER8](#)
- [Supervisory Council \(Operations Role\)](#): [Tamara Benetti & Entropy Advisors](#)

As per the updated Arbitrum DAO procedures, the election type will be [weighted](#) and [shielded](#) voting, which is the default for Snapshot elections.

2. [Arbitrum Onboarding V2: A Governance Bootcamp](#) (voting ends on 12th Dec, Thursday)

The onboarding working group is requesting \$193,138 in ARB to run a V2 onboarding program, which will function like a Governance Bootcamp to source and train a select group of new DAO contributors.

Selected applicants will receive a monthly stipend of \$1,500 and undergo a 6-week curated curriculum that will cover all the fundamentals of participating in Arbitrum DAO governance and more.

The 10 highest-scoring participants will become 'Governance Fellows' and be matched with an protocol to assist with governance work.

3. [Arbitrum D.A.O. Domain Allocator Offerings](#) Grant Program - Season 3 (voting ends on 12th Dec, Thursday)

JojoTheCow proposes a third season of the Domain Allocators Offerings Grant Program that would run for a full year, encompassing the existing four domains (Protocols, Education/Community and Events, Dev Tooling, and Gaming) while potentially adding a fifth domain (Orbit), costing either \$6,622,200 or \$7,477,800 in ARB accordingly.

This program is designed to support innovation within the Arbitrum ecosystem by funding projects across various domains.

The program will maintain its milestone-based payment structure and focus on long-term project sustainability. A structured election process for Domain Allocators and Program Managers is outlined
