

What is the Compiler Reading Group [CRG]

It is a reading group covering interesting literature and presentations in computer science relating to operating systems and programming languages. Some previous topics included:

- An Efficient Implementation of Self
- A presentation of Nock
- A presentation on small applications in Elixir and Erlang
- And much more

Each session is recorded and posted to the [youtube channel that can be found: here](#).

Meeting Times

Meetings normally happen every other Monday at 10 PM TPE (4 PM CST, 10 AM EST) starting on the first week of the month.

Recently Due to time constraints they happen when announced:

meet.google.com

[Google Meet: Online Video Meetings and Calls | Google Workspace](#)

Use Google Meet to stay connected with video meetings and calling (powered by Google Duo), part of Google Workspace.

Structure

If the meeting is covering a paper, then the paper is briefly went over in the meeting, with the organizer answering questions that were left open by the paper during the overview or afterwords.

if the meeting is a presentation, then it typically has the presenter presenting what they wish to everyone in the group.

Suggestions/Presentations

If you want to suggest a paper for us to read or want to present, then simply send an email with the following information:
