

Governance Precompile

[illegible]

This precompile enables participation in Sei's governance process through the EVM, allowing EVM users and contracts to submit proposals, vote, and query governance information.

Functions

Transactions

- vote
- : Allows a user to cast a vote on a governance proposal
- /// Cast a vote on the specified proposal.
- ///
- @param
- proposalId The ID of the proposal to vote on.
- ///
