

Hey Arbitrum friends,

As outlined in our [proposal](#) to expand Tally support for the Arbitrum DAO, we integrated Karma's delegate score and contributor metrics into [Tally's delegate page](#) so token holders and DAO stakeholders have access to holistic participation information. Specifically, we added Karma Score, Snapshot voting %, onchain voting %, and forum score to Tally.

Forum score is calculated according to the following formula:

$$\frac{((100) * ((\text{Proposals Discussed Percentile} * 1) + (\text{Proposals Initiated Percentile} * 1) + (\text{Forum Post Count Percentile} * 1) + (\text{Forum Topic Count Percentile} * 1) + (\text{Forum Likes Received Percentile} * 1) + (\text{Forum Posts Read Count Percentile} * 1)))}{(\text{Sum of Weights times Max Score Setting} * 1)}$$

Karma Score is calculated according to the following formula:

$$\frac{((100) * ((\text{Forum Activity Score} * 1) + (\text{Off-chain Votes \%} * 3) + (\text{On-chain Votes \%} * 5)))}{(\text{Sum of Weights times Max Score Setting} * 1)}$$

)

As always, please reach out if you have any feedback or suggestions for Tally. Cheers!
