## Focus Areas:

- Long-term Growth:

Acquiring new users and growing new product offerings to scale the ecosystem and its value proposition.

- Economic Sustainability:

Ensuring the long-term sustainability and eventual profitability of the protocol through robust financial management.

- User Security:

Improving the security and robustness of the protocol to protect against vulnerabilities and attacks.

- Transparency and Accountability:

Promoting transparent decision-making and holding key stakeholders accountable to build trust.

- Technological Innovation:

Fostering cutting-edge innovation by supporting research and technical upgrades that provide a competitive edge.

- Research-backed Insights:

Striving for data-backed insights and active research to support informed decision-making among DAO participants.

## About Us:

Pantera Capital is the first institutional investment firm focused exclusively on digital assets and companies in the blockchain and crypto ecosystem. Pantera launched the first cryptocurrency fund in the United States in 2013, the first blockchain venture fund in 2014, and the first early-stage token fund in 2017. Today, Pantera manages ~\$5bn across passive, hedge fund, and venture fund strategies – exclusively focused on blockchain.

In 2018, Pantera Capital led the seed funding round for Offchain Labs, original developers of and core contributors to Arbitrum.

Conflicts of Interest Disclosure:
