

Bridging Native Tokens from L1 to L2

Go to the Deposit tab of the rollup bridge at <https://bridge.ata.network> . In the token selector, choose ETH (Sepolia Ether) and input the amount of tokens you wish to bridge to Automata Testnet, and click Deposit.

?

A popup from your wallet will request your approval.

?

The deposit will be initialized after you confirm the transaction, and shortly after, your tokens will be received on the Automata Testnet.
