

Hey guys!

I am currently studying the governance of the Ethereum project. One important pillar of my methodology is a questionnaire of stakeholders. For this purpose I created one questionnaire for developers and one questionnaire for community members:

Developer Questionnaire: <https://goo.gl/forms/uEPMcmIfChJRzhvs1>

Community Questionnaire: <https://goo.gl/forms/ppQf6ANzP3Qj8wQS2>

I would greatly appreciate your participation in either (or both) questionnaires! The questionnaires are relatively short, each taking about 5 minutes. Some questions overlap for the purpose of comparing stakeholder groups. I will be publishing my findings when my thesis has been accepted.
