

Hey everyone,

We just launched a new, redesigned Developer Resources

page on the main Secret website:

<https://scrt.network/developers>

[

](https://global.discourse-cdn.com/standard17/uploads/enigma1/original/2X/9/94f7a0873a28b255462c602748531e16453b10c4.jpeg)

Check it out! – this was a collaborative, community effort to better-showcase all the current dev resources available in the Secret ecosystem and provide more structure and guidance for new devs.

Big thanks to everyone who helped give design input and offered feedback in the creation of these – Darren, Laura, Sinplea, Haseeb, Bengsee, Guy Garcia, Assaf, Evelien, Telegram Brian, Jay, Tor, Superficial, Stake or Die team, and others

Very excited to bring these UX improvements to this area of our website and optimistic this will help improve new developer learning and engagement.

We'll continue to update it as new resources become available
