

Secret Network v1.6

The Secret Network v1.6 update did not introduce any breaking changes for developers. General performance improvements were introduced and described below;

- Changed internal WASM engine to Wasm3 from Wasmi. Contract performance increased greatly.
- Reduced gas costs:
 - - Default instruction cost 1 -> 2
 - - Div instruction cost 16 -> 2
 - - Mul instruction cost 4 -> 2
 - - Mem instruction cost 2 -> 2
 - - Contract Entry cost 100,000 -> 20,000
 - - Read from storage base cost 1,000 -> 10
 - - Write to storage base cost 2,000 -> 20
