

Abstract

Two or three sentences that summarize the proposal.

To stimulate economic activity, interest in the DAO, participation by community (NFT, Landed, and ApeCoin Holder), and in the spirit of Squid Games, Hunger Games, Battle Royale, Running Man, and the Gladiator Colosseum. I propose a series of games, with \$Apecoin and NFT prizes.

The First Annual Boredom Games

Motivation

A statement on why the APE Community should implement the proposal.

If we don't start breeding our athletes and testing our doping programs we will not be prepared by the time we are called to participate in The Metaverse Games. If The Highlander pattern is followed to decide the one true metaverse we don't want to be caught flat footed.

Rationale

An explanation of how the proposal aligns with the APE Community's mission and guiding values.

Competition is essential within a modern society. If we aren't given an outlet to express our Darwinian directive it will find ways to express itself. Let's make sport not war. The Boredom Wars will come, I assure you, but first Games!
