

IDaiLikePermit

Interface for DAI-style permits

Functions

permit

function

permit (address holder , address spender , uint256 nonce , uint256 expiry , bool allowed , uint8 v , bytes32 r , bytes32 s)

external

Parameters:

Name	Type	Description
holder	address	spender address
nonce	uint256	expiry
uint256	uint256	allowed
bool	bool	v
uint8	uint8	r
bytes32	bytes32	s

bytes32 [Edit this page](#) [Previous interfaces](#) [Next IWithdrawable](#)
