

Hi guys.

I have a proposal for DAO for further discussion. We are close to get expected airdrop. Sybils and airdrop hunters will definitely sell all or most of obtained tokens. Arbitrum fans like me who are interested in Arbitrum ecosystem and DAO development and sustainability will hold tokens thus participating all DAO events and ecosystem growth.

I would suggest special reward program for loyal users who will not sell airdropped tokens but hold at least more than 50% of received tokens and lock them in pools or put in hold for DAO voting.
