

The final blog post in our Secret Nodes series has just been released,

detailing Enigma's full economic structure, staking requirements, and upcoming milestones - including open-sourcing our code base and launching the Genesis Game. More details include minimum staking threshold (25,000 ENG), what prospective node operators must do to receive testnet tokens, our upcoming AMA, and how genesis scores will be calculated.

[Enigma – 25 Mar 19](#)

### **Secret Nodes, Part 3: Rewards, Requirements, and the Genesis Game**

In this exhaustive post, learn how you can—and why you should—run secret nodes for Enigma's Discovery release.
