

New Blobstream X deployments

If you want to deploy Blobstream X to a new chain, where a Gateway contract does not exist, you need to do the following.

If Succinct Gateway already exists on this chain, you can skip this step [You can check the list of deployed Succinct Gateway contracts](#).

Deploy a new Succinct Gateway

contract

[Deploy a new Succinct Gateway contract to the new chain](#).

Deploy a Blobstream X

contract to the new chain

[Follow the guide to use your deployed Succinct Gateway to deploy a new Blobstream X contract](#).

Run a local prover

Now that you have the contracts deployed, you can [run a local prover](#). [\[\[Edit this page on GitHub \]](#) Last updated: [Previous page Requesting data commitment ranges](#) [Next page Deploy a rollup](#) [\[](#)
