

SECTION 1: APPLICANT INFORMATION

Applicant Name:

Javi B.

Project Name:

Turtle Ninja

Project Description:

Turtle Ninja revolutionizes DeFi investments with a pioneering visual programming language. Our platform empowers users to devise, execute, and refine investment strategies using intuitive logic and data-driven insights. Launched in June 2021, Turtle Ninja has evolved into a dynamic ecosystem, enabling seamless exploration and innovation in DeFi. Our integration with GMX stands out, offering users tools to automate and strategize their investments through a user-friendly visual interface.

Team Dynamics:

Our 12-member team, drawing from a decade-long collaboration at Glue Digital, brings a wealth of experience in security, cryptography, and software development. Esteemed clients like eBay, Securitas, and Carrefour have trusted our expertise. Our contributions to notable projects and recognitions from Laus Awards and the German Design Council underscore our commitment to excellence.

SECTION 2: GRANT INFORMATION

Requested Grant Size:

100,000 ARB

Grant Matching:

153,000 TORTLE

Grant Utilization Plan:

1. GMX V2 Integration:

Upgrading Turtle to seamlessly interact with GMX V2.

1. Educational Outreach:

Producing engaging content to demystify DeFi strategies, complemented by a comprehensive marketing campaign.

1. Futures Trading Competition:

A promotional event to showcase the capabilities of our platform, focusing on derivatives and GMX.

Funding Allocation:

The grant will bolster our runway, enabling us to focus on product development. We plan to inject the funds into bootstrapping liquidity on GMX's preferred DEX and pairing it with Turtle tokens, ensuring a robust ARB/TORTLE liquidity pool. This strategic move, managed by a reputable third party, will fortify our position in the DeFi landscape.

SECTION 3: GRANT OBJECTIVES AND EXECUTION

- Milestone 1 Completion:

January 31st, 2024

- Milestones 2 and 3 Completion:

Q1 2024, no later than March 31st, 2024

SECTION 4: PROTOCOL DETAILS

GMX Integration Date:

May 2023

SECTION 5: DATA AND REPORTING

To maintain transparency and track progress, we will issue bi-weekly progress logs aligned with our development sprints. Additionally, a comprehensive Dune Board will be created, showcasing key performance indicators like daily user metrics, volume, active strategies, and Total Value Locked (TVL).
