### II. Current Progress:

- The next ETH++ vault epoch will be deployed to coincide with the launch of our Rodeo++ vault. This Rodeo++ is a tactical vault is partnership with Rodeo to deposit upto 75% of TVL into the leveraged GM farms on Rodeo with balance in ETH++ making use of the GMX platform and opportunity for ARB incentives from 3 platforms
- D2 Token Relaunch will be announced on Camelot's twitter spaces Jan 25

### III. Community Engagement:

- Strong base community engagement as demonstrated by filling the vault caps for ETH++ immediately
- Expanding the community to certain WL Rodeo members for our targeted vault

### IV. Partnerships and Collaborations:

- Partnerships with Lyra, Dolomite, and other blue chip protocols in progress
- The focus of D2 partnerships is to utilize the underlying protocols and provide real intrinsic value to both partners in the relationship
