

As we draw up plans for events and other functions that rely on funding, what happens when a grant recipient for, say, IRL Events receives a grant to organize an event? Presumably, they'd be granted an allotment of \$APE to fulfill on their objective.

Most expenses, however, must be paid in USD. What happens when someone gets a grant in \$APE but has to convert that to USD? Is there a third-party in place to make such a conversion so that the recipient doesn't incur a taxable event on the behalf of ApeCoin DAO?
