

1- I will vote no

to any proposal on making new airdrop, keeping your money away of unnecessary inflation.

2- I see a potential on smart contracts that goes far beyond their economic and financial growth (that is currently a lot), but as a resource to actually built an entire society based on blockchain system.

3- This is chaos, and it was beautiful, but at some point, if we want to become mainstream (and rich) we need order.
