

Hi [@cobie](#)

can we have a vote that if eth breaks 2,000 eth-ish, we can sell a lot of Lido's treasury eth to fund some run way? serious

also, what do u guys think about placing the treasury placing a \$10 mm market buy order for LDO then bringing in one of the scum bag market makers to pump it from there ? and then selling 1 mm lido tokens at \$20 per LDO ? kind of joking but not really
