

Adding some data investigation here on the imposter behavior (as time of Sep 5 evening PT):

There are multiple builder pubkey appeared as imposters: 1 for flashbots, 10 for Titan (not including 0xabf1ad5e in titan's list active June-Aug is team's testing instance - confirmed by their team)

](https://ethresear.ch/uploads/default/original/2X/5/5f165c5f78c1d87770a6fb87d46c8fc57c127128.png)

1 builder pubkey appeared in both cases that is not known/controlled by the team - is the default pubkey lots of new builder instances accidentally use - which shall be ruled out from the imposter concern:

0xaa1488eae4b06a1fff840a2b6db167afc520758dc2c8af0dfb57037954df3431b747e2f900fe8805f05d635e9a29717b

.

(split reply into multiple because of new user embedding media limits > <)
