

Dear Optimism Community,

My name is Lukas and I'm a co-founder of CRNFT which is an "Upwork" for NFT and metaverse-related services.

Here is the [pitch deck](#)

We've been growing exponentially as more creators and partners come to our community. We are raising the 2M seed fund to scale and onboard 10 000 freelancers and their clients. On top of it, We really want to build this from scratch on the Optimism chain.

Mission:

- create a platform curated by its members.
- provide innovative solutions for brands entering the digital world
- build bridges between art, fashion, and architecture.

Happy to send over more information if this looks like something on your radar.

My telegram is @nyclukas

and I'm happy to answer all your questions.
