There are 11 slashing ongoing with the RockLogic GmbH node operator in Lido. Lido DAO contributors and RockLogic are investigating.

Currently, the total projected impact is around 20 ETH, or about 3% of average daily protocol rewards/0.0004% of TVL.

On April 13, 2023 DAO Contributors identified 11 slashings related to validators operators by RockLogic GmbH as a part of the Lido protocol and notified the relevant node operator to shut down the impact node(s) and investigate the cause.

Contributors are currently working together with the Node Operator to assess the full impact, if any other validators may be affected, and root cause.

More information and a detailed incident report will follow.
