

Happy to announce full bulk data exports for the [Flashbots MEV-Boost Relay](#)!

<https://flashbots-boost-relay-public.s3.us-east-2.amazonaws.com/index.html>

The exported data includes:

1. Delivered payloads (weekly and monthly, 150k payloads)
2. Builder block submissions (with successful simulation, grouped by slots, 36M submissions)

All data is exported in both JSON and CSV format.

Examples:

- [/data/1\\_payloads-delivered/weekly/2022\\_w43.csv](#)
- [/data/1\\_payloads-delivered/weekly/2022\\_w43.json](#)
- [/data/2\\_builder-submissions/builder-submissions\\_slot-5032501-to-5035000.csv.gz](#)
- [/data/2\\_builder-submissions/builder-submissions\\_slot-5032501-to-5035000.json.gz](#)

This is how the website for downloading the exports looks like:
