With the upcoming launch of ApeChain, the ApeCoin community is taking a leap forward in creating one of the most robust ecosystems in web3-enhanced gaming, with a focus on content and utility to drive delight amongst gamers, reward developers, and increase the usage of \$APE. Making it effortless for games to launch, attract players, and scale on ApeChain is fundamental to the ecosystem's success. Empowering developers (and therefore gamers and usage) requires the right technology and solutions, and Sequence is excited to propose APE Builder as a platform to supercharge the development of games on ApeChain and spur the utility of \$APE.
