

Voting Cycle 2 begins Thursday (June 23) at 12pm PST / 7pm GMT and runs until Wednesday (July 6) at 12pm PST / 7pm GMT.

Voting will take place in Snapshot. A snapshot of delegate voting weights will be taken at the start of the Voting Cycle.

For a detailed breakdown of the governance and voting process, see the Operating Manual.

Context

Voting Cycle #2

begins the process of voting for Phase 1

of the Governance Fund. This begins the more open-ended side of the Governance Fund, where allocations are no longer restricted to existing Optimism Projects. A few notes on the process as we enter Phase 1:

- Votes will not be batched

and each proposal should be individually considered based on its own strengths and weaknesses.

- As stated in the OPERating Manual, it is the recommendation of the Optimism Foundation that at least one delegate (with >0.0005% of voting power) signals their belief that the proposal is ready for a vote before passing.
- The Optimism Foundation has made its best effort to enumerate which proposals have received such supporting signal. The order for this cycle prioritizes those proposals to the start of the list

, both in this post and on Snapshot.

- However, in our spirit of governance minimization, all proposals marked READY

by authors are up for consideration and votable

. As such, the recommendation of the OPERating Manual can be overridden if delegates so choose.

- As a reminder, the purpose of the Governance Fund is meant to spur sustainable growth and activity

on the Optimism network. More information [can be found in the Governance Fund Phase 1 template](#) * The Optimism Foundation notes that there is a significant allocation OP tokens for Retroactive Public Goods Funding (RPGF), as detailed in the [Allocations Documentation](#), which is distinct from Phase 1.

- As above, in the spirit of governance minimization, the Optimism Foundation has not performed any filtering based on whether or not a proposal accomplishes this goal. The Token House could override the above intention and pass any of the votable proposals. As a reminder, this would not be decremented from the RPGF allocation, and instead be removed from the ~230M OP Governance Fund.
