

Hi all. We're trying to come up with ways to improve DAO and DAICO structures. Full disclosure, we're an ICO project ourselves. This, we think, gives us some view into what might be needed from both sides of the aisle. Thanks for your consideration of the DAO3 article here: <https://medium.com/@cotrader.com/the-future-of-companies-onchain-dao3-will-exponentially-accelerate-the-creative-process-541337ce36ef>

Should you like to comment about it on Twitter, it's here below.

We'd really like to get some feedback about it. Thanks again!
