

Title: CD Recognition Submission

Ecosystem Actor Ethereum address: [0xa2d55b89654079987cf3985aeff5a7bd44da15a8] Ethereum address of Delegation Contract 1: [0xDB8148340a3e68F79f271207B5aB6c0E0c6338E2]:[Followed Growth CVC] Ethereum address of Delegation Contract 2: [0xE43B70E2A842455E8D6e7E552dFCBd754dF47177]:[Followed Regenerative Finance CVC]

Frontier Research is proud to declare as a Constitutional Delegate (soon to be renamed 'Aligned Delegate') under the [Endgame Constitution](#). Our formal CD Recognition Submission above has been drafted in compliance with MIP113 5.2 and the [relevant provision of the Arbitration Scope Framework](#)

We will work diligently to support and advise:

- [Growth CVC](#)
- [ReFi CVC](#)

As an Aligned Delegate, Frontier Research sees its core role as helping translate the vision and philosophy of CVC members into practical Maker governance decisions and reforms. We think we are well placed to assist with this given our prior experience with Maker governance and constitutional reforms in DeFi and beyond.

We intend to distinguish ourselves with high-quality analysis and recommendations for our chosen CVCs, Growth and ReFi. Consistency also matters: our prior delegate platform scored 100% for both participation and communication, and we never missed a vote. We are looking forward to supporting MKR holders and CVCs through the Endgame, hopefully ushering in an exciting new era for Maker.
