Educational Background:

MBA degree from North Park University with emphasis in Organizational Development, Chicago, IL (2012)

Professional Background:

Corporate Governance Certificate, required to sit on company boards. (2022)

Nomination Statement

Concise statement on why you are running for Steward of the Governance Working Group

If the whole point is decentralization of the DAO, I am the most decentralized person you will ever meet. Mongolia became a capitalist democracy in 1990, a year after I was born. Ever since then, it was in my blood to fight for the community as well as unite everybody's involvement. DAO is the Web3 version of what I believe. It is in my blood.

Motivation

Details on your motivation for becoming a Governance Working Group Steward

The ape community has changed my life, and now I want to give back to them in the best way possible, which is governance, that benefits and protects all the stakeholders.

Rationale

Share relevant experience and skills that will bring value to the ApeCoin DAO

I have been on the board of numerous startups and incubators where governance rules all actions, now I can utilize that experience for my favorite community and DAO.

Specifications

Further describe relevant experience, including crypto and governance participation

Bought BTC in 2015, joined the NFT space two and a half years ago, became speaker at NFT London & NFT NYC, onboarded thousands of artists, advised on multiple NFT marketplaces and platforms, founding member of Meebits DAO & the Wolves DAO

Concluding Statement

Summarize your statement as to why you are the best choice for Governance Working Group Steward

I feel like I can bring a completely different angle to the working groups, not that I am from Mongolia, but that my brain is built differently to make quick decisions and come up with the most efficient solution.
