

Subscription Notifications

Get upcoming payment and renewal notifications via email

Adding your Email Address

1. Sign In:
 2. Access your account by logging in with your wallet.
 3. Navigate to Settings:
 4. Look for the 'Settings' option within the platform interface. It is typically symbolized by a gear icon.
 5. ?
 6. Email Configuration:
 7. Within 'Settings', switch to the 'Notifications' tab where you can add or edit your email address.
 8. ?
 - 9.
- ?

Verify your email

After entering your email you should receive a verification email from noreply@gelato.digital asking you to verify your address.

?

On confirmation you will receive a welcome email informing you that you will start to receive notifications.

?

Available notifications

You will be notified when:

- An upcoming subscription payment is due
- A subscription has been successfully renewed
- If there has been an issue renewing your subscription
- Renewal has not been possible and your subscription has been downgraded
-

We will be expanding the range of notifications available.

Stopping notifications

The best way to stop notifications is to go to your [notifications settings](#) and delete your email.

You can also use the unsubscribe links in your emails but note that if you do this and then try to reactivate it you will need to notify us to remove you from the suppression list.
