

Lending & Borrowing

The Canto Lending Market at canto.io/lending allows users to lend and borrow assets. Currently, USDC, USDT, and NOTE can be supplied to and borrowed from the Canto Lending Market. Additionally, [USYC](#) can be supplied.

Supplying Tokens

To supply an asset to the Canto Lending Market, follow these steps:

1. On the canto.io/lending
2. homepage, click SUPPLY NOTE
3. . For other assets, click Supply
4. in the RWAs
5. or Stablecoins
6. tab.
7. Enter the quantity of the asset. If necessary, approve the token's transfer.
8. Click Confirm
9. and confirm the transaction in your wallet.
- 10.

Once the transaction has been mined, asset-specific cTokens will be minted to your wallet. These tokens represent your lending position and are automatically burnt when withdrawing the supplied asset.

Withdrawing Supplied Assets

To withdraw a supplied asset from the Canto Lending Market, follow these steps:

1. On the canto.io/lending
2. homepage, click SUPPLY NOTE
3. . For other assets, click Supply
4. in the RWAs
5. or Stablecoins
6. tab.
7. Switch to the Withdraw
8. tab and enter the quantity of the asset you wish to withdraw.
9. Click Confirm
10. and confirm the transaction in your wallet.
- 11.

If you have open borrow positions, note that you will not be able to withdraw if the hypothetical borrow limit usage exceeds 100%, as this would result in liquidation.

Borrowing

In order to borrow an asset, there must be enough supply in the Canto Lending Market to borrow against. To do so, follow these steps:

1. On the canto.io/lending
2. homepage, click BORROW NOTE
3. . For other assets, click Borrow
4. in the Stablecoins
5. tab.
6. Enter the quantity of the asset you wish to borrow.
7. Click Confirm
8. and confirm the transaction in your wallet.
- 9.

Note that it is possible to manually enter a borrow amount whereby the borrow limit used exceeds 80%, but this is not advisable due to liquidation risk.

Repaying Borrows

To repay a borrowed asset, follow these steps:

1. On the canto.io/lending
2. homepage, click BORROW NOTE
3. . For other assets, click Borrow
4. in the Stablecoins
5. tab.

6. Switch to theRepay
7. tab and enter the quantity of the asset you wish to repay.
8. ClickConfirm
9. and confirm the transaction in your wallet.
- 10.
