

I did a little surfing on www.apecoin.com and saw that some of the information is outdated.

Following Information is outdated:

- captaintrippy still seems to be Special Council
- Apecoin Press Kit still contains pictures of the first Special Council (Yat Siu, Maaria Bajwa, Dean Steinbeck, Amy Wu, Alexis Ohanian) + their bios
- Apecoin press kit should include Apechain related content
- Governance - Voting Process - 4th does not mention super majority voting

Do we need separate AIPs for such changes or should webslinger do this in a timely manner?

Edit:

I saw that the NFT checker is also useless and can be removed...
