

Hey everyone,

I don't meant to make multiple posts on the forums and am trying to ensure good etiquette, but would appreciate some help here

A few days ago I made this proposal to the DAO but it was instantly set to hidden by a mod so nobody could see or comment on it

I have tried asking in discord for input into why so I could fix it but got no response, so I am hoping someone here can help. Just let me know what to change and I'll repost so it doesn't get hidden and no comments.

Here is the original proposal which is hidden: [Proposal: Temporarily Block PlutusDAO From ARB Grants/Airdrops](#)

Thank you
