About Anthias Labs

Anthias Labs is a boutique blockchain r&d firm centered on public goods tooling and actionable research, with a specific focus on risk management and parameter design. Our team has taken an active role in multiple DAOs and is excited to be supporting Optimism further!

Principles Anthias Will Vote By

1. Decentralization

. Decentralization is a core tenet in how we determine votes.

1. Risk

. Risk must be accounted for in all proposals. The primary risk we will seek to mitigate with our vote is direct economic risk to Optimism community members and OP holders. The second risk we will seek to mitigate with our vote is risk of centralization, which could lead to the primary risk above.

1. Structure and Process

. We will support proposals that follow the structures and processes outlined by the Optimism governance community. We will assist the community in assuring proposals accurately outline their objectives and risks as well as follow a structure that all Optimism governance participants can easily follow to assist with Tenet #1

of Decentralization.

Delegate / Contact

- If you would like to delegate your OP to us, please delegate to our address here: anthiaslabs.eth (0x7575f04a46b6d76142723e765f7546c354773406)
- If you would like to chat with the Anthias Labs team, feel free to reach out to our primary representative Charlie via Telegram @OxBroze

or via email at team@anthias.xyz.
