

As we anticipate the release of the Grants Program v2 later this year, we would like to create a space for community members to discuss their concerns about the current grants program and share their ideas for improvements and updates they'd like to see moving forward. This thread aims to provide an open and inclusive platform for constructive dialogue to help shape the future of the grants program.

In this thread, we encourage you to discuss various aspects related to the current grants program and potential improvements, including but not limited to:

1. General concerns: Share any concerns or issues you have experienced or observed with the current grants program.
2. Eligibility and application process: Discuss any suggestions for changes or additions to the application process and eligibility requirements.
3. Funding allocation and transparency: Share your thoughts on the current funding distribution and any ideas to improve transparency and fairness in this area.
4. Grant categories and focus areas: What new categories or focus areas do you think should be added or adjusted to better support the diverse needs and interests of the platform?
5. Evaluation and feedback process: Discuss potential improvements to the evaluation process of grant proposals and any mechanisms that could be put in place to provide constructive feedback to grant recipients.
