

@ ETH San Francisco I stopped by the Ape Coin booth and was reminded of the philosophy/vision for Ape Coin: A token made to support the evolution of art, gaming, entertainment, digital and physical events, storytelling, and everything else web3 dreams up.

I have a background in music and video production. I have been coding for 5 years now. Did full stack development bootcamp and a solidity bootcamp. Ready to build!

ABOUT

I grew up in my family's restaurant business and it has taught me more than anything about life that I could have learned elsewhere; that the most important aspects about business and...
