

Clash of Nodes Challenges

Embark on an exhilarating journey with the Clash of Nodes incentivized testnet, where a series of dynamic challenges await. Engage in rigorous network testing, vie for points, and vie for potential rewards.

Before You Start

Please be aware that this document doesn't include the full spectrum of challenges within the campaign; additional challenges will be unveiled and highlighted as the campaign progresses.

SELECTIVE ENTRY & PARTICIPATION NOTICE We're carefully rolling out the campaign with a select group to ensure quality and precision. If you've been invited, instructions are on their way. For our wider community, please know that while the initial spots are limited, this is just one of many opportunities we're excited to share with you. Your continued support is vital to us, and we're looking forward to involving more of you as we grow. ⚠️ **ENSURE YOU AGREE TO FOLLOW THE ASSOCIATED T&CS AND CAMPAIGN RULES** Please find the associated Terms and Conditions [here](#).

Please also make sure to read and adhere to the established rules and guidelines for the Clash of Nodes campaign, available [here](#). This will ensure a fair and enjoyable experience for all participants.

List of Challenges

Discover the challenges that are currently active and prepare for the other ones:

Status Legend

- = Active
- = Upcoming
- = Paused
- ✓ = Completed

Challenge Name	Category	Description	Who Can Participate	Scoring Metrics	Status
Dymension RollApps	Stacks/Apps	Launch Avail-powered RollApps or migrate existing RollApps to utilize Avail as a DA layer. Anyone ** TVL rise and user engagement metrics ✓	Anyone	TVL rise and user engagement metrics	Active
Madara - Karnot Appchains	Stacks/Apps	Launch Avail-powered Starknet Appchains using Madara and Karnot. Anyone Chain usage and user engagement metrics ✓	Anyone	Chain usage and user engagement metrics	Active
Noble Warrior	Basics	Show your valor by adhering to the noble principles of validation. Validators Negative points for: times offline, times slashed ✓	Validators	Times offline, times slashed	Active
Attacking the Treasury	Attacks	Discover and exploit potential vulnerabilities in the treasury or burn mechanism. Anyone Number of successes and failures reports	Anyone	Number of successes and failures reports	Active
Magic Nomination Pools	Staking/Rewards	Are you able to create nomination pools and nominate validators? Pool Creators Size of pool members ✓	Pool Creators	Size of pool members	Active
To The Stake	Staking/Rewards	Aim to amplify your validator backing by securing a greater number of nominations during the testnet marathon. Validators Total amount staked ✓	Validators	Total amount staked	Active
Finding Yourself	Basics	Establish your presence by registering and confirming your identity on the network. Anyone Identities added and verified ✓	Anyone	Identities added and verified	Active
Max Balance Transfer Points	Basics	Demonstrate your prowess by executing as many transfers as possible across the network. Anyone	Anyone	Number of transfers	Active
Gladiator's Entry	Basics	Enter the fray by setting up as a validator. Your mission: author as many blocks as you can, outlasting your rivals. Validators Number of blocks authored ✓	Validators	Number of blocks authored	Active

Note: Migrating an established RollApp with (high) TVL to Avail for data availability does not confer any competitive advantage. The challenge is structured to ensure fairness, treating both newly launched RollApps and those with existing TVL and activity on equal footing.
