

[ARFC] Increase Supply and Borrow Caps for weETH on Base

Title: [ARFC] Increase Supply Cap for weETH on Base

Date: 2024-07-13

Author: [@ACI](#)

Summary

This is a straight-to-AIP proposal to raise the supply caps for weETH on Base to accommodate growing demand and participate in Superchain rewards programs.

Motivation

weETH has been consistently hitting its current supply cap across networks, often immediately after risk steward raises caps.

We propose this ARFC to increase the supply caps, which will bring in in line with market demand and allow new depositors to participate in [OP rewards](#) from Optimism's Superfest program.

Specification

Supply cap for weETH on Aave V3 Base will be increased to 20,000 weETH. The borrow cap will be increased to 9,000 weETH.

Disclaimer

The ACI is not presenting this ARFC on behalf of any third party and is not compensated for creating this ARFC.

The ACI is a delegate of [Ether.Fi](#) and members hold eETH.

Next Steps

1. If consensus is reached on this [ARFC Addendum], escalate this proposal to AIP stage.
