

This is a final notice of upcoming collateral offboardings per [MIP62](#).

The offboardings will occur in the Executive Vote scheduled to go live on 2023-05-17.

LINK-A, YFI-A, MATIC-A, and UNIV2USDCETH-A vaults will be offboarded, and the remaining positions liquidated.

This will be achieved through the following parameter changes:

- Set liquidation penalty to 0%.
- Set debt ceiling to 0.
- Set tip to 0.
- Set chip to 0.
- Set liquidation ratio to 10,000%.

Further information can be seen in the forum thread here: [Decentralized Collateral Scope Parameter Changes #1 - April 2023](#)
