

Merhaba!

Hi folks, It's Mete from node101.

As node101, we have been validating more than 18 projects in the Cosmos ecosystem, including Band Protocol, Sommelier, Crescent, and Canto. node101 mainly provides technical solutions, produces products for the Cosmos ecosystem, and focuses on increasing adaptability. For example, we are currently working on a product that enables people to install and manage their nodes with just a click and without coding. In addition, we have been publishing "101" level content as blogs, podcasts, and videos in Turkish and English. Moreover, to support the Turkish Blockchain Builder Ecosystem, We have organized physical events such as [Cryptlist](#), Moda Palace Monthly Gatherings, NYM and Manta Gatherings, Sui - Move Languages Workshops and Aleo - Tour of Türkiye.

We have been producing video content for dYdX to help Turkish users understand its features thoroughly ([dYdX Türkiye](#)). With our top-level devs and content team, we will assist dYdX in continuing its journey of change in finance.

With smart contracts and liquidity pools, they innovate,

Efficient, transparent, a platform we appreciate.

From margin trading to staking, possibilities unfold,

dYdX project, a revolution against old.
