

I am trying to bridge 7000+ DAI to sDAI but the transactions keeps failing and retrying. Is there anyway to cancel the transaction?? I can't do anything, it seems to be perpetually stuck!

Never have had any issue like this in the past, I have wrapped dai to sdai before many times... Not sure why this has to happen on such a large amount...

Here is the operation ID:

054e0824-f379-4480-ad57-d84ff8f3aae9

Here is the transaction on ethplorer:

[Ethereum \(ETH\) Blockchain Explorer](#)

### **Ethereum Transaction Hash (Txhash) Details | Etherscan**

Ethereum (ETH) detailed transaction info for txhash 0x24dad32d6a5fc88e070bf3cd4bce6cc37c61a6301f16514adb160a53adac37d4. The transaction status, block confirmation, gas fee, Ether (ETH), and token transfer are shown.

Here is a screenshot:
