

Dear Lido Community,

We are thrilled to announce that Solstice Staking AG, a Swiss public limited company and Deus X Capital Enterprise company, has acquired Bridgetower Capital GmbH's staking division, including its entire team and resources, without any material changes. All of the existing Bridgetower validators and associated delegated staking operations will remain fully operational through the transition, managed by the same team, and operating on the same on-premise infrastructure in Switzerland. The relationship between Deus X Capital and Bridgetower Capital has been a longstanding and collaborative one, built on a shared vision of fostering innovation and excellence in the digital asset space.

The Bridgetower team has been fully integrated into Solstice Staking with ownership of all day-to-day business matters, highlighting our commitment to ensuring seamless operations and maintaining the highest levels of quality and reliability for our partners and clients. Solstice Staking is further committed to enhancing security standards now with support from broader crypto-resources of Deus X and is actively working toward SOC 2 certification to further strengthen the security and reliability of its infrastructure.

This acquisition directly aligns with Solstice's vision of driving innovation in blockchain and digital asset services while expanding our capabilities in staking and institutional-grade infrastructure. Together, we aim to continue delivering cutting-edge solutions to developers, institutional clients, and the broader blockchain community.

Solstice Staking will remain committed to the principles of decentralisation and security, striving for greater transparency and compliance across all our offerings. We would be delighted to address any questions you may have as we continue operations and invite you to connect with us directly.

Thank you for your continued trust and support as we embark on this exciting new chapter together.

Warm regards,

The Solstice Staking Team
