

Hey everyone,

At Constellation we are trying to help create a more scalable and viable on-chain governance.

One of the key challenges we have identified is information asymmetry. For this reason we have decided to build a one stop shop website for Uniswap information.

On [theunion.finance](#) you will find articles helping you follow the latest news about our favorite AMM, data analytics to guide you on the current health of the protocol and summaries of major debates on the forum.

This blog is for the users who don't have the time to dedicate themselves to deep research on Uniswap. If you do and feel the blog is lacking, feel free to contribute.

[In this article you will find our reasoning behind the creation of this blog, along our position on the current state of the protocol.](#)

This is a freely curated website by our governance venture.

As always, feedback and comments are welcome !

Cheers,

Figure - [Constellation Delegate](#)

PS : [It's the last day of our Gitcoin Grant, if you like the initiative, feel free to contribute.](#)
