

Dear all,

I did checking on telegram, my balance is 400UNI.

I did try to withdraw on it but failed as it said I have no ETH of my bot wallet for GAS.

I did deposit to it already.

I follow up "Requirement & How to claim your 400 UNI", by connect through my metamark wallet but when claim UNI, it say my address get nothing?

What happens to me, Can I withdraw this fund?

please kindly someone else help me,.

Thanks in advance,
