

We're excited to share that we're opening up nominations for the Arbitrum DAO grants domain allocators. With reference to [Delegated Domain Allocation by Questbook - Arbitrum DAO Grants](#)

, we propose community members self-nominate themselves for becoming domain allocators for the following domains:

1. Gaming
2. Developer Tooling on NOVA
3. New Protocol Ideas
4. Education, Community Growth and Events

Nomination Process

To be considered a candidate for a domain allocator for any of the above-listed domains, we invite community members to self-nominate themselves by replying to this post and sharing the following details in their replies:

1. Name:
2. Your forum username:
3. Twitter:
4. What is your experience in the interested domain? Please share links and supporting information. Do you have experience running in any other grant programs?
5. What would you like to see built on Arbitrum in your domain and what a good grant proposal looks like for you
6. Time commitment - You need to commit at least 15 hours of your time per week as a domain allocator

, and what is the expected Turn Around Time (TAT) that the builders can expect from you?

1. Declaration of Conflict of Interest

Guidelines

1. If you have any questions/queries related to the domain allocator selection process, please comment below or DM [Saurabh](#) on Twitter.
2. We request community members to nominate themselves for a particular domain in order to ensure fairness and diversity in the selection process.
3. The nominations will be open for two weeks. After the nomination period, the domain allocators for each domain will be elected through a community-wide Snapshot vote
4. The nomination period begins on August 7th at 3 pm EST, and the last date for nominations will be August 21st at 3 pm EST.
5. The Snapshot vote will commence on August 23rd and will remain on Snapshot for community voting for one week.

Domain Allocator Roles & Responsibilities:

The following will be the roles and responsibilities of the selected domain allocators.

1. Time commitment per week: Maximum of 25 hours per week for the program manager and 15 hours per week for the domain allocator, which might vary based on the number of applications. The program manager will ensure that the workload is evenly distributed
2. Program Manager:
3. Communication:
4. Work with the Arbitrum team and the elected domain allocators to create and list out the necessary RFPs
5. Identify key areas and relevant ecosystem partners who will co-fund grants alongside Arbitrum
6. Create marketing content for communicating RFPs to the builders
7. Coordinate between Arbitrum team and the community regarding cohort announcement and funding requirements
8. Communicate the information regarding approval/rejection of proposals to the Arbitrum community regularly

9. Attend community calls, actively participate in the community forum, and keep the community updated and take their feedback on the program
10. Regularly update the progress of the grants program to the Arbitrum community over Discord and community calls
11. Bi-weekly reporting of key metrics of the grants program and each selected project such as:

Metric

Details

Names and summary of accepted proposals

Total number of proposals that have been accepted by each domain allocator along with the proposal summary

Grant Amount Disbursed

Names of the proposal that have been awarded a grant amount along with the proposal summary and grant amount

Milestone Completion Rate

Each team should have a clear set of milestones and deliverables that they need to achieve. Program manager will share the status on milestone completion for each project

User Engagement

Number of users onboarded by a grantee onto their project

TVL

TVL (if applicable) of selected projects

Project Completion Rates

Number and names of projects who have completed all milestones

Growth in community engagement

Measured by number of followers of the project across different social media platforms, Discord community members

External Funding

Number of projects that have raised follow on capital after getting a grant from Arbitrum

1. Work with the Arbitrum team and the elected domain allocators to create and list out the necessary RFPs
2. Identify key areas and relevant ecosystem partners who will co-fund grants alongside Arbitrum
3. Create marketing content for communicating RFPs to the builders
4. Coordinate between Arbitrum team and the community regarding cohort announcement and funding requirements
5. Communicate the information regarding approval/rejection of proposals to the Arbitrum community regularly
6. Attend community calls, actively participate in the community forum, and keep the community updated and take their feedback on the program
7. Regularly update the progress of the grants program to the Arbitrum community over Discord and community calls
8. Bi-weekly reporting of key metrics of the grants program and each selected project such as:
9. Grants Program:
10. Source good-quality proposals from developer communities
11. Sign the transactions for the approved projects
12. Ensure a quick turnaround time for proposers regarding their proposal decision
13. Coordinate between the domain allocators to ensure that the workload is evenly distributed and take their feedback consistently
14. Source good-quality proposals from developer communities

15. Sign the transactions for the approved projects
16. Ensure a quick turnaround time for proposers regarding their proposal decision
17. Coordinate between the domain allocators to ensure that the workload is evenly distributed and take their feedback consistently
18. Communication:
19. Work with the Arbitrum team and the elected domain allocators to create and list out the necessary RFPs
20. Identify key areas and relevant ecosystem partners who will co-fund grants alongside Arbitrum
21. Create marketing content for communicating RFPs to the builders
22. Coordinate between Arbitrum team and the community regarding cohort announcement and funding requirements
23. Communicate the information regarding approval/rejection of proposals to the Arbitrum community regularly
24. Attend community calls, actively participate in the community forum, and keep the community updated and take their feedback on the program
25. Regularly update the progress of the grants program to the Arbitrum community over Discord and community calls
26. Bi-weekly reporting of key metrics of the grants program and each selected project such as:

 15. Sign the transactions for the approved projects
 16. Ensure a quick turnaround time for proposers regarding their proposal decision
 17. Coordinate between the domain allocators to ensure that the workload is evenly distributed and take their feedback consistently
18. Domain Allocator:
 19. Review proposals received for their domains based on the rubrics set by the domain allocator
 20. Reject/Approve proposals and coordinate consistently with the program manager
 21. Source applications by reaching out to developer communities in their network
 22. Discuss program improvements with the other domain allocators and program manager during scheduled meetings

We welcome comments from all the community members after which the domain allocator for each domain will be selected via a community-wide Snapshot vote.

1. Review proposals received for their domains based on the rubrics set by the domain allocator
2. Reject/Approve proposals and coordinate consistently with the program manager
3. Source applications by reaching out to developer communities in their network
4. Discuss program improvements with the other domain allocators and program manager during scheduled meetings
