Proposal Name

ApeCoin Arenas

Gaming & MetaVerse

Proposal Category

Ecosystem Fund Allocation

Abstract

We are the Gladiators of the web3 world

Welcome to the ApeCoin Arena

AIP

This AIP serves to facilitate the launch and operation of the Wreck League Arena and Otherside Arena... Powered by ApeCoin

Author

Craig Moss - [@WebMoss](#)

[AIP-243: The Ape Inn - EthGlobal Project](#)

I am a Software Engineer who is passionate about web3 and thrives on creating pixel-perfect software applications. I have a keen eye for detail and enjoy working in a frontend role, building and refining user interfaces and solving UI & UX problems.

My experience extends to full-stack development where I have worked on a fair share of web applications. I have experience in managing teams, worked in business and data analytics roles in the IT sector for over ten years professionally.

I am an active member of the ApeCoin DAO.

Motivation

APE is a token made to support what's next and web3 gaming is getting ready to onboard the next wave of web2 users.

This AIP serves to facilitate the building and operation of the ApeCoin Arenas which will again, secure ApeCoin as the web3 gaming token of the future.

The first ApeCoin Arena will be created for the Wreck League game which recently launched. The WL ApeCoin Arena will host various Wreck League tournaments and events whereby different NFT communities can battle it out for honour and glory in their Wreck Mechs. NFTs and ApeCoin prizes will be given for tournaments and events.

The Second ApeCoin Powered Arena will be built in Otherside and can host various events including games [NFTeams sports leagues](#), music events, concerts, art displays, festivals, [@ETHGlobal](#) hackathons and so much more.

We have some excellent talent like [@jackie](#) and [@day25](#) in the community who are already building in this direction, this proposal would align our efforts and collaborate to create an amazing attraction for web2 and web3 users alike.

The ApeCoin Arena should be owned and run by the ApeCoin DAO with a dedicated team of artists, designers, developers and project manager from the community.

Rationale

We need to continue to grow the ApeCoin ecosystem and build into the future.

The aim is to create something unique in the MetaVerse that is proudly Powered by ApeCoin.

Apes will be utilised in storytelling, promotions and marketing of the ApeCoin Sports Team.

We aim to create the Ape Sporting Champions of the web3 world. Apes will be modeled for playing in the Arenas and we can go as far as making team jerseys and IRL merchandise to match.

Apes will also serve as a funding tool in the project and will support future developments in the project and the web3 gaming and MetaVerse space.

Benefit to ApeCoin Ecosystem

We aim to create something truly special for ApeCoin in the MetaVerse that would increase uses cases for ApeCoin and will also showcase the ApeCoin DAO's web3 vision and goals as we build into the future of web3 gaming and the MetaVerse.

Key Terms

Wreck League - wreckleague.xyz

Wreck League is the Megaverse's preeminent mech sports combat organization, known for its spectacular battles, robust customization, and competitive culture.

From humble beginnings on a distant junk moon to the creation of its governing board, B.R.A.W.L, Wreck League has grown to become the pinnacle of mechanized sporting events.

NFTeams - nfteams.club

NFTeams is the first worldwide sports league on the Ethereum blockchain, with 10,000 unique sports franchises battling it out for major prizes. The league brings together lovers of sports, betting, NFTs and cryptocurrency to compete in a variety of tournaments each month. Owning an NFTeam gives you access to all tournaments, free NFT drops, whitelist opportunities and much more.

Our vision is to be the biggest and most inclusive sporting league in the world, with team owners already based all around the globe.

AnotherWorld - anotherworld.gg

Specifications

Wreck League Arena Owners will be able to run and customise their own @WreckLeagueHQ

Arenas and host Tournaments and events.

We will host different ApeCoin tournaments including friendly battles with other communities or get more competitive and offer prizes in ApeCoin and NFTs and battle to the death or for pink slips, these modes will be offered by Wreck League.

A custom ApeCoin Arena will be created to host tournaments against other communities like the Mocas and Coolcats for example.

Steps to Implement

AIP includes purchasing a Wreck League Arena NFT to customise to our needs.

AIP includes purchasing prime deeds in Otherside for the ApeCoin Arena.

See [MLB Stadium

](https://www.sportspromedia.com/technology/mlb-virtual-ballpark-improbable-nft-tech-all-star/?zeph_r_sso_ott=6hj7hK) as a reference

The ApeCoin Arenas will be operated by a dedicated team of artists, designers, developers and a project manager.

We will collaborate with different members of the community who are already building in this direction.

Timeline

The project will be an ongoing collaboration between various parties building in the ApeCoin DAO.

Once we are able to get our Wreck League Arena NFT, we will begin work on customising it to our needs. We can begin hosting different tournaments within 2 to 3 months.

Once the Wreck League Arena is up and running, focus will shift to building the Otherside ApeCoin Arena. A prime deed will be acquired in Otherside for the arena.

The funding and staking will allow the project to continue growing and support further developments as we build into the MetaVerse and whats still to come.

Overall Cost

\$1 million USD or equivalent in ApeCoin which will be used to acquire 15 Ape NFTs to create the ApeCoin Sports team that will be used in storytelling, marketing and promotions. The Otherside deeds and Wreck League Arena NFTs will also be bought with this part of the budget.

151 410 ApeCoin will be required to max stake against the 15 BAYC Ape NFTs.

1, 000, 000.00 ApeCoin will be staked alone in the [Horizen Labs Staking Contract](#)

Combined this will give us an approximate monthly budget to fund the project and the team

33,385.9644 ApeCoin or

\$42,265.0697 USD

- Figures according to data from <https://apecoinui.com/data>.
