

Hello everyone,

I am delighted to introduce StakingCabin (<https://stakingcabin.com>), a dedicated infrastructure and validator service provider committed to delivering reliable and secure solutions for various blockchain networks, with a strong emphasis on the Cosmos Interchain ecosystem.

With several years of experience in providing validator & staking services, StakingCabin has established itself as a trusted partner for over 50 networks since our inception in 2020. We take pride in our recent participations, particularly with the Move-based blockchains Aptos and Sui, as well as Cosmos based L1 Coreum, Sei and Celestia among many others. Our primary goal is to contribute to the growth and development of the Cosmos Interchain ecosystem and beyond by offering a comprehensive suite of services.

With a proven track record of delivering exceptional results, we consistently achieve an uptime of no less than 99% on all protocols that we provide validator service to. Our team excels in swiftly and efficiently deploying various nodes, placing a strong emphasis on ensuring their functionality and stability.

As a dedicated user of dYdX, StakingCabin would love to join dYdX community and contribute to network security and decentralization. We share dYdX's vision of providing powerful and transparent financial products to traders. Leveraging our expertise we are eager to work with the dYdX community to enhance the ecosystem and drive its success.
