## Nomination Statement

Concise statement on why you are running for the Governance WG Steward

To bring a change in mindset, timezone and fresh start that the governance needs. Currently everything is revolving around EST, from meetings to important calls and twitter space. Despite having a large number of active members from Asia and Europe, people are missing out on important discussions that are often only from one perspective and enforced upon.

## Motivation

Details on your motivation for becoming an ApeCoin DAO Governance WG Steward

Since last year my involvement in the DAO has expanded alongside my experience, skills and knowledge of what is going behind the scene as well as in the front lines. I've been a long time core contributor of the DAO as well as an active community member, welcoming people and guiding them about all things \$ape. Since last year, I've looked forward to this opportunity and learned from other core contributors. I know what the community wants, the challenges new people exploring the DAO faces and where we can improve.

## Rationale

Share relevant experience and skills that will bring value to the ApeCoin community

I'm evil, you know me

## Specifications

Further describe relevant experience, including crypto and governance participation, and/or ideas for DAO improvement

- Onboarding numerous artists to NFTs and sponsoring gas fees, helping them explore web3.
- Web2 and Web3 native start-up founder focusing on educating and spreading awareness about blockchain.
- Apecoin partner representative for ETH Global 2023.
- Active contributor of the DAO

## Concluding Statement

Summarize your statement as to why you are the best choice for Governance WG Steward

I'm someone the Apecoin DAO members know and trust, someone who knows the problem community members and authors face. Apecoin DAO needs a member who isn't a BAYC/MAYC so that people outside the DAO can see that this isn't just a place for BAYC/MAYC, but for everyone who holds \$ape and wants to build around it.
