

Recapping the [update for the previous quarter](#), with kind thanks owing to SCRT Labs and all the validators going above and beyond, we ran a tight ship and operated for an extra month, and still have \$750 remaining going into the next.

Per request from other stakeholders on testnet, I've added the following to the [charter](#);

## Testnet relay backup nodes

Maintain Axelar/Secret testnet relay Run Osmosis testnet node Run Juno testnet node

This will add \$600 monthly to the budget.
