

Markets Explorer Navigational Chart

When first opening the Liquidity Terminal you will find yourself on the Markets Explorer page which is divided into five principal sectors, each containing navigational aids, information, and tools, to lubricate your journey.

The first step before you can use Liquidity Terminal is to connect your wallet (see image 1).

Image 1 Once you have connected your wallet to Orca the Markets Explorer display will change (see image 2).

There are six key sectors, numbered in the image below. Let's continue on downward as we voyage through the Liquidity Terminal.

Image 2

1. Side Navigation Bar

This side navigation bar will remain visible as you move between pages in the Liquidity Terminal.

There are four components (image 3)

Image 3 1. Hamburger button 2. (≡): toggles the Side Navigation Bar 3. compact form, leaving more room for other features. 4. Page menu: 5. move between the pages of the Liquidity Terminal 6.
