

Hi, at present, Lido Dao receives 10% of the user's stacking revenue as a rebate, of which 5% is paid to the verification node operator and 5% is used as Treasury insurance. The revenue is nearly \$70 million. I suggest reducing the income distribution of verifiers to 4% and Treasury insurance to 4%, taking 2% to buy back Lido tokens, and launching the stacking of Lido tokens at the same time, Make Lido tokens suitable for use in Lido economy
